Skills	
Testing Manuel Testing: (Regression, Smoke, UAT, Exploratory), API Testing: (Postman, Swagger, Insomnia), Defect Tracking: (Jira, Xray), Test Documentation:(Test plans, Test Cases, Test Reports)	Frontend HTML5, CSS3, SCSS, Tailwind CSS, JavaScript (ES6+), TypeScript, Angular (Signals, RxJS, NgRx, Standalone APIs), React (Hooks, Context, Zustand), Next.js, Remix, Wordpress
Backend & APIs Nestjs, Supabase, NestJS (REST APIs, Guards, Pipes, DTOs, Validation), RESTful API design	DevOps & Tooling Git, GitHub (PR reviews, version control), Docker (basic containerization), CI/CD: Netlify, Vercel, Postman, Swagger, Insomnia, Jira, Confluence (Agile/Scrum workflows)
State Management & Data NgRx Store & Effects, Zustand, TanStack React Query, TanStack Router, Zod schema validation	Performance & Best Practices Web performance optimization (lazy loading, code splitting), SEO optimization, Accessibility (ARIA, semantic HTML), Modular and clean architecture principles
Tools Postman, Jira, Insomnia, Confluence, Docker, Git, Github, Swagger, xray	UI DESIGN FIGMA, Photoshop, Canva, illustrator

Experience	
Deutsche Telekom, (Onboarding platform) Associate Software engineer	Remote 2025- Jan 2026
<ul style="list-style-type: none">Designed and executed test cases for onboarding platformPerformed API testing for backend integration with PostmanAutomated regression scenarios to support continuous delivery in Agile sprints.Managed defect tracking, logging, and retesting using Jira/Xray.Reduced manual regression time by 60% using Playwright automationIncreased test coverage of critical flowsPrevented release bugs by catching issues early	
AmaliTech Ghana Associate Software Engineer	Ghana Novermber 2023 - 2026
<ul style="list-style-type: none">Developed and maintained the official AmaliTech website using WordPress, improving performance, SEO, and overall user experienceIntegrated Calendly booking workflows, streamlining appointment scheduling and increasing user engagementApplied Angular best practices to create a modular, scalable frontend architectureWorked in an Agile/Scrum environment, actively participating in sprint planning, daily standups, and retrospectivesCollaborated with backend engineers, designers, and QA teams to deliver end-to-end featuresCreated technical documentation to support long-term maintainabilityImplemented advanced Angular patterns including Signals, RxJS streams (combineLatest, debounceTime) and reactive forms for complex user interactionsOptimized frontend performance through lazy loading, route-based code splitting, memoization, and efficient change detectionIntegrated REST APIs with robust error handling, loading states, and retry logicApplied accessibility best practices using semantic HTML, ARIA attributes, and keyboard navigationCollaborated with designers to translate Figma designs into pixel-perfect, responsive UI components	
Freelance Software Developer	Ghana December 2020 -2023
<ul style="list-style-type: none">Designed and delivered SEO-optimized, multilingual (English/German) web platforms, increasing organic traffic by approximately 50% within 3 monthsWorked directly with clients to gather requirements, propose technical solutions, and iterate quicklyDeployed and maintained applications using Netlify and Vercel, managing CI/CD pipelinesEnsured clean, maintainable code through testing and best practicesOptimized SEO using structured metadata, semantic markup, and performance tuningEnsured cross-browser compatibility and mobile-first responsiveness	

Education	
Koforidua Technical University - Koforidua, Western Region, Ghana Computer Science	Bachelor Degree August 2021 - 2023 June
https://www.ktu.edu.gh/	
Takoradi Technical University - Takoradi, Western Region, Ghana Information Technology	Higher National Diploma (HND) August 2018 - 2021
https://ttu.edu.gh/	

Profiles	
Github Nerogh	
Languages	
English Fluent	
Twi Native
