SUMMARY

Frontend Engineer with 5+ years of experience building scalable, high-performance web applications and content-driven websites using Angular, TypeScript, WordPress, Drupal, and React. Experienced in frontend architecture, custom CMS theming, performance optimization, SEO, accessibility, and design-to-development workflows.

Strong expertise in Angular, RxJS, NgRx, reactive programming, modular frontend architecture, REST API integration, and responsive UI development. Experienced collaborating with designers, backend engineers, QA teams, and stakeholders to deliver production-ready solutions with a focus on clean code, maintainability, testing, and user experience.

SKILLS

Frontend

- HTML5, CSS3, Sass/SCSS, Tailwind CSS
- JavaScript (ES6+), TypeScript
- Angular(Main), React
- Responsive Web Design
- Drupal — Custom Theming, Twig, Views, Blocks, Content Types
- WordPress — Elementor, Divi Builder, Theme Customization
- Shopify
- REST API Integration
- Figma-to-Development

Performance & Best Practices

- Lazy Loading & Route-Based Code Splitting
- Web Performance Optimization
- SEO & Technical SEO
- Semantic HTML & Accessibility (WCAG)
- Responsive Design
- Modular & Scalable Architecture
- Clean Code & SOLID Principles
- Error Handling & API Resilience

Testing

- Unit Testing (Jest, Jasmine)
- End-to-End Testing (Playwright)
- Manual Testing, Regression testing
- Test-driven development principles
- Code reviews
- QA Collaboration

State Management & Tools

- RxJS & Reactive Programming
- NgRx
- Angular Signals
- TanStack Query, Redux / Redux Toolkit, Zustand, Zod

Tools

- Docker (containerization)
- CI/CD (Github Actions)
- Git & GitHub (Version Control, Pull Requests, Code Reviews)
- VPS
- S3, Uploadthing
- Dokploy(self hosting)
- Postman, Swagger, Insomnia
- Jira, Confluence, Xray
- Agile/Scrum

UI Design

- Figma
- Adobe Photoshop, Adobe Illustrator
- Canva
- Design-to-Development Workflow

EXPERIENCE

Supply Chain Traceability Platform & Amaliblog

Amalitech Ghana

08/2025 – Present
Ghana

- Led frontend architecture for an enterprise Angular/TypeScript supply chain traceability platform, delivering scalable operational dashboards and workflows.
- Designed modular Angular architecture using standalone components, reusable components, RxJS, NgRx, and feature-based organization.
- Improved application performance through lazy loading, route-based code splitting, efficient change detection, and optimized state management.

- Collaborated with backend engineers, designers, and QA while participating in technical estimation, code reviews, Agile planning, mentoring, and delivery.

Amalitech & FUWSA Website

11/2023 – 2025
Takoradi

Amalitech Ghana

- Developed and maintained responsive WordPress marketing websites using Elementor, translating Figma designs into production-ready interfaces.
- Created reusable Elementor sections and customized WordPress functionality to support evolving marketing and business requirements.
- Improved SEO, performance, accessibility, and responsive behavior across desktop, tablet, and mobile devices.
- Collaborated with designers and marketing stakeholders to deliver website features, troubleshoot issues, and maintain consistent branding and user experience.

Marketing Website

2021 – 03/2022
Tantra Hill, Accra

MGA Ghana

- Developed and customized a responsive Drupal marketing website using Twig, HTML5, CSS3, JavaScript, and custom theming.
- Worked with Drupal content types, fields, blocks, menus, and Views to create a flexible content management experience.
- Built reusable page layouts and frontend components while focusing on responsive design, accessibility, performance, and maintainability.
- Collaborated with designers and stakeholders to translate Figma designs and business requirements into production-ready Drupal interfaces.

Camic Associate Website

02/2020 – 2021

Freelance Software Developer

- Developed a responsive WordPress marketing website using Divi Builder, HTML5, CSS3, and JavaScript.
- Translated Figma designs into responsive WordPress pages and customized layouts and reusable sections to meet branding requirements.
- Improved website performance, SEO, responsive behavior, and cross-browser compatibility.
- Integrated Calendly for appointment scheduling and managed ongoing WordPress content and frontend improvements.
